

A low-angle, upward-looking photograph of the Donald E. Stephens Convention Center. The building's facade is a mix of grey perforated metal panels and large glass windows. A prominent feature is a curved, perforated metal canopy over the entrance, with the words "STEPHENS CONVENTION CENTER" in large, raised, silver letters. Below the canopy, there are horizontal bands of red and yellow trim. A circular logo with a red and white design is visible on the upper part of the facade. The sky is blue with scattered white clouds.

RULES AND REGULATIONS

SAMPLES, SOUVENIRS, ETC.

The distribution of samples and souvenirs is permitted provided there is no interference with other exhibitors and the giveaways pertain to the Medical and/or Health Care profession. If you have questions about what is permitted for giveaways on the show floor, please email Jordan Sampson, Operations Manager at jsampson@pri-med.com to discuss your ideas prior to purchase. Animals are not allowed on the show floor without prior approval. All distribution of handouts, souvenirs, promotional literature, etc. must be done from your booth. If you are a Pharmaceutical Company, it is your responsibility to ensure that your exhibit and distributions are in accordance with all relevant industry regulations (PhRMA Code on Interactions with Healthcare Professionals and AdvaMed Code of Ethics on Interactions with Healthcare Professionals), federal regulations (Department of Health and Human Services, Office of the Inspector General Compliance Program Guidance for Pharmaceutical Manufactures and the FDA Guidance on Industry Supported Scientific and Educational Activities). In addition, all companies must adhere to the AMA Code of Medical Ethics on Gifts to Physicians.

For further information, please visit the following websites:

AMA guidelines: <http://www.ama-assn.org/ama/pub/category/13497.html>

Pharma guidelines:
<http://www.phrma.org/>

NO SMOKING POLICY

There is no smoking allowed anywhere in the Donald E. Stephens Convention Center.

CROWD CONTROL

It is the exhibitor's responsibility to arrange displays and product giveaway presentations in a manner which ensures all personnel and attendees are within the contracted space, and not encroaching on the aisle or neighboring booths. Exhibitor personnel must manage this onsite. This will be strictly enforced.

BALLOONS

Balloons are strictly prohibited by show management.

PORTER SERVICE (TRASH REMOVAL)

If an exhibitor is distributing samples or souvenirs, which can create excess trash in public space, they are required to make arrangements for porter service. Storing trash in the aisles is prohibited. Porter service can be ordered by the hour, half hour, or on continual service. Please contact Freeman Exhibitor Services to set up the service appropriate to your booths' needs.

PRODUCT TESTING AND EXHIBITOR DEMONSTRATION

All X-Ray machines that will be operated in the exhibit hall must be approved by the Exhibitor Services Specialist. Demonstrations that affect the quality of the show due to unpleasant odors or noise violations will be monitored. Show Management has the right to ask that a demonstration be stopped if there is a reasonable disturbance.

SOLICITING

It is against Pri-Med policy to solicit a crowd in any manner outside of the facility. Any acts of solicitation found will be taken seriously and may result in the loss of priority points.

SOUND/MUSIC

In general, exhibitors may use sound equipment in their booths so long as the noise level does not disrupt the activities of neighboring exhibitors. Speakers and other sound devices should be positioned so as to direct sound into the booth rather than into the aisle. Rule of thumb: Sound and noise should not exceed 85 decibels.

Exhibitors should be aware that music played in their booths, whether live or recorded, may be subject to laws governing the use of copyrighted compositions. ASCAP, BMI and SESAC are three authorized licensing organizations that collect copyright fees on behalf of composers and publishers of music.

SYMPOSIA & PRESENTATION THEATER POLICY

Please be advised that direct promotion of symposia & presentation theaters is strictly prohibited in an exhibit booth on the tradeshow floor. Symposia & presentation theaters sessions are ticketed events with limited seating and are available on a first come, first served basis. It is imperative that exhibitors do not promise a seat/ticket for a symposium or presentation theater to a non-registered attendee on-site. If an attendee has not received a ticket, they may visit the attendee registration counters for an update on availability.

BOOTH DESIGN & BUILD

EQUIPMENT REMOVAL FROM THE EXHIBIT HALL

To reduce the occurrence of theft, we would like to discourage exhibitors from hand carrying materials out of the exhibit halls. Security will stop anyone hand carrying materials out of the exhibit hall and ask for a "Property Pass." These passes can be obtained in the show office.

AMERICANS WITH DISABILITIES ACT (ADA)

All exhibiting companies are required to be in compliance with the Americans with Disabilities Act (ADA) and are encouraged to be sensitive, and as reasonably accommodating as possible, to attendees with disabilities.

Information regarding ADA compliance is available from the U.S. Department of Justice ADA Information Line (800-514-0301) and from web site www.usdoj.gov/crt/ada/infoline.htm.

TEAR-DOWN

Dismantling or tearing down an exhibit early, or leaving your booth unattended is prohibited for the following reasons:

- It is unfair to attendees who plan to visit booths until the close of the show.
- It is unfair to neighboring exhibitors.
- It hurts the integrity of the show.

If you begin dismantling your booth prior to the official closing hour of the exhibition, it can result in the loss of priority points and/or the refusal by Show Management to accept or process future exhibit space applications.

Therefore, all exhibits must remain fully intact and staffed until the exhibition has officially ended.

STORAGE

Fire regulations in most exhibit facilities prohibit storing product, literature, empty packing containers or packing materials behind back drapes or under draped tables. In most cases, however, exhibitors may store a limited supply of literature or product appropriately within the booth area, so long as these items do not impede access to utility services, create a safety problem or look unsightly. Corner booths will be required to drape any unsightly areas behind the booth at their own expense.

CARPET OR FLOOR COVERING

****REQUIRED****

Exhibitors are required to cover their entire booth space. Exhibitors are entitled to bring in their own floor covering, or they can rent carpet from Freeman. If an exhibitor in an island booth does not have their carpet line up with the aisle carpet, causing the facility floor to show, aisle carpet will be used to fill in any gap that may exist. The "cut and lay" for this fill in will occur at the exhibitor's expense.

STRUCTURAL INTEGRITY

All exhibit displays should be designed and erected in a manner that will withstand normal contact or vibration caused by neighboring exhibitors, hall laborers or installation/dismantling equipment such as forklifts. Displays should also be able to withstand moderate wind effects that may occur in the exhibit hall when freight doors are open. Refer to local building codes that regulate temporary structures.

Exhibitors should ensure that any display fixtures such as tables, racks, or shelves are designed and installed properly to support the product or marketing materials to be displayed upon them.

FLAMMABLE AND TOXIC MATERIALS

All materials used in display construction or decorating should be made of fire retardant materials and be certified as flame retardant. Samples should also be available for testing. Materials that cannot be treated to meet the requirements should not be used. A flame-proofing certificate should be available for inspection. Exhibitors should dispose of any waste products they generate during the exhibition in accordance with guidelines established by the Environmental Protection Agency and the facility.

ELECTRICAL

Every exhibit facility has different electrical requirements; however, minimum guidelines are suggested:

- All 100-volt wiring should be grounded three-wire.
- Wiring that touches the floor should be "SO" cord (minimum 14-gauge/three-wire) flat cord, which is insulated to qualify for "extra hard usage".
- Cord wiring above floor level can be "SJ" which is rated for "hard usage".
- Using zip cords, two-wire cords, latex cords, plastic cord, lamp cord, open clip sockets, and two-wire clamp on fixtures is not recommended and is often prohibited. Cube taps are not recommended and are often prohibited.
- Power Strips (multi-plug connectors) should be UL approved, with the built-in over load protectors.

LIGHTING

Exhibitors should adhere to the following suggested minimum guidelines when determining booth lighting:

-No lighting, fixtures, lighting trusses or overhead lighting are allowed outside the boundaries of the exhibit space.

Exhibitors intending to use hanging light systems should submit drawing to exhibition management for approval.

-Lighting should be directed to the inner confines of the booth space. Lighting should not project into other exhibits or show aisles.

-Lighting which is potentially harmful, such as lasers or ultraviolet lighting, should comply with facility rules and be approved in writing by exhibition management.

-Lighting that spins, rotates, pulsates and other specialized lighting effects should be in good taste and not interfere with neighboring exhibitors or otherwise detract from the general atmosphere of the event.

BOOTH DESIGN AND BUILD

Standard 10 foot Deep Linear Booth

Definition

One or more 10x10 units in a straight line.

Height

Exhibit fixtures, components and identification signs in the front 5' of the booth cannot exceed 4' in height. Exhibit displays and identification signs in the back 5' of the booth will be permitted to a maximum height of 8'.

DISPLAY FIXTURES OVER 4' (1.22M) HIGH MUST BE CONFINED TO THAT AREA OF THE BOOTH THAT IS AT LEAST 5' (1.52M) FROM THE AISLE LINE

Intent

Each exhibitor is entitled to a reasonable sight line from the aisle. Exhibit spaces of 30 lineal feet or more, are able to use as much of the floor space as long as they do not interfere with the Rules and Regulations governing sight lines. Limiting display fixtures height and location is to accommodate the sight lines of neighboring exhibitors.

Hanging Signs

Hanging signs are not permitted in 10x10 booths.

If your exhibit has any variations from the Rules and Regulations, contact Show Management for written approval 60 days prior to set up.

Important

Space dimensions shown on floor plan are from the center line of the booth structure (side rails and back drape). Exhibit structures must be constructed to allow sufficient tolerance for utility service at rear of booth as well as building columns that may exist at the perimeter of the exhibit booth.

BOOTH DESIGN AND BUILD

Island Booth

Definition

An island booth is four or more 10x10 units, with a minimum side dimension of 20 feet, one or more display levels and aisles on all four sides.

Height

Exhibit fixtures, components and identification signs are permitted to a maximum height of 20'.

Multi Story Exhibits

All multi-story exhibits, regardless of whether people will occupy the upper area or not, and all exhibit fixtures and components exceeding 8' in height must have drawings submitted for approval.

Hanging Signs

A hanging sign is permitted over any island exhibit space 400 square feet or larger, provided it is not objectionable and there are no physical constraints within the facility. The maximum height of the top edge of the sign from the floor is twenty feet (20').

The following guidelines will apply to all exhibitors planning to hang a sign:

- Exhibitors must contact the Show Operations of Pri-Med to verify that a hanging sign is permissible over their contracted exhibit space.
- Shipping and installation arrangements for hanging signs are to be processed by the General Service Contractor. Please fill out and return the appropriate hanging sign order form.
- At the close of the show, hanging signs will be removed last. Exhibitors may need to make separate arrangements for shipping of these signs. Please check with the General Service Contractor for estimated removal time.

If your exhibit has any variations from the Rules and Regulations, contact Show Management for written approval 60 days prior to set up.

Important

Exhibitors are cautioned when installing a display with a ceiling or second level to check with the local fire department to insure that their display meets the necessary fire safety precautions involving smoke alarms, fire extinguishers, sprinkler systems, etc. Please note that the height of the ceilings alter depending on the convention center and your booth location. Check with the convention center and conference manager for the exact height above your booth.

BOOTH DESIGN AND BUILD

Perimeter Wall Booth

Definition

A perimeter booth is a 10x10 booth or larger located on the perimeter walls of the Exhibit Hall.

Height

Exhibit Fixtures, components and identification signs will be permitted to a maximum height of 12'. All display fixtures in the front 5' of the booth cannot exceed 4' in height.

Intent

Because the outer perimeter booths are not backed up against another exhibitor's booth, display back walls and materials over 8'0" will not interfere with or distract from any other exhibitor booth.

DISPLAY FIXTURES OVER 4' (1.22M) HIGH MUST BE CONFINED TO THAT AREA OF THE BOOTH THAT IS AT LEAST 5' (1.52M) FROM THE AISLE LINE

Important

Exhibitors are cautioned when installing a display with a ceiling or second level to check with the local fire department to insure that their display meets the necessary fire safety precautions involving smoke alarms, fire extinguishers, sprinkler systems, etc. Please note that the height of the ceilings alter depending on the convention center and your booth location. Check with the convention center and conference manager for the exact height above your booth.

If your exhibit has any variations from the Rules and Regulations, contact Show Management for written approval 60 days prior to set up.

Demonstrations

Definition

The part of the exhibit program involving the interaction of exhibit personnel and their audience through corporate presentations, product demonstrations or sampling.

Regulation

BOOTH DESIGN AND BUILD

Demonstration areas must be organized within the exhibitor's space so as not to interfere with any aisle traffic and sampling or demonstration tables must be placed a minimum of 2' from the aisle line.

Should spectators or samplers interfere with the normal traffic flow in the aisle or overflow into neighboring exhibits, exposition management will have no alternative but to request that the presentation or sampling be eliminated.

Intent

The aisles are the property of the entire show and each exhibitor has the responsibility to assure proper flow of traffic through the entire show. When large crowds gather to watch a demonstration or for sampling and interfere with the flow of traffic down aisles or create excessive crowds in neighboring booths, it is an infringement on the rights of other exhibitors. Aisles must not be obstructed at any time.

Sound

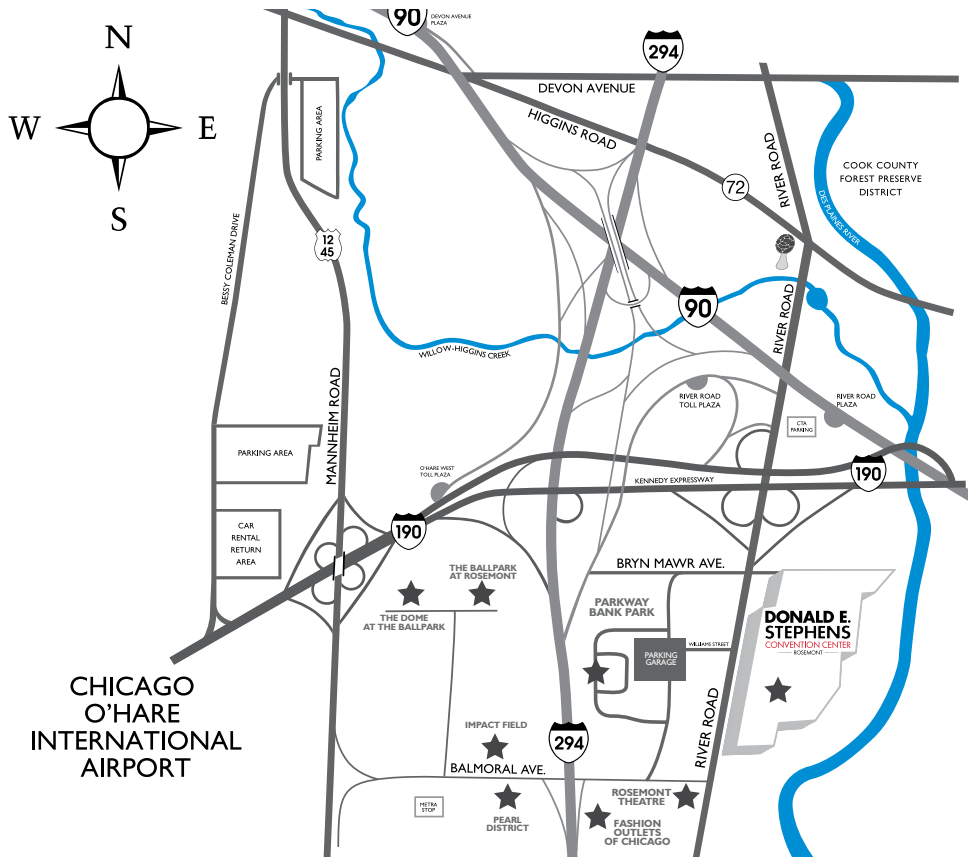

Exhibitors must police their own booths to be sure the noise levels from demonstrations or sound systems is kept to a minimum and does not interfere with others. Remember the use of sound systems or equipment producing sound is an exception to the rule, not a right. Exposition management reserves the right to determine at what point sound constitutes interference with others and must be discontinued.

Safety Precautions

All product demonstrations involving any moving and potentially hazardous machines, displays or parts, must have hazard barriers to prevent accidental injury to spectators. Demonstrations must always be supervised by exhibitor personnel who can stop the demonstration in the event of an emergency and all demonstrations involving potentially hazardous by-products, such as dust, fumes, sparks or flames, must be approved in writing by exposition management 60 days prior to the show.

MATERIAL HANDLING

Drayage and warehouse freight are billed on a round-trip basis, and invoicing will be done from the actual weight as listed on the inbound bills of lading. If you have any questions about material handling, please contact our Customer Service Department. NOTE THAT NO ADJUSTMENTS TO DRAYAGE CHARGES WILL BE MADE ONCE THE SHOW MOVE-OUT HAS CONCLUDED.

WASTE REMOVAL

Environmental Protection Agency (EPA) regulations require that all water soluble cutting and grinding fluids (coolants-synthetics, soluble oil) be removed in approved containers at the end of the show. This service is available from the official General Contractor who will collect the fluids named on the front from special steel barrels (55 gal. drums) and remove them from the show premises. Each exhibitor, however, has the responsibility of collecting and placing the fluids named on the front of his/her barrel(s).

WATER SOLUBLE CUTTING AND GRINDING FLUIDS (COOLANTS-SYNTHETIC, SEMI-SYNTHETIC, SOLUBLE OIL) ONLY SHALL BE PLACED IN APPROVED BARRELS AS MARKED. DO NOT MIX WITH WASTE STRAIGHT OIL, AS THIS WILL RESULT IN A PREMIUM SURCHARGE OF DOUBLE THE QUOTE PER GALLON CHARGE.

WASTE STRAIGHT OIL MUST NOT BE MIXED WITH ANY OTHER MATERIALS INCLUDING WATER SOLUBLE CUTTING AND GRINDING FLUIDS (COOLANTS-SYNTHETIC, SEMI-SYNTHETIC, SOLUBLE OIL) AS THIS WILL RESULT IN A SURCHARGE TO THE EXHIBITOR PER GALLON FOR REMOVAL OF MIXED FLUIDS. ONLY PLACE WASTE STRAIGHT OIL IN DESIGNATED BARRELS.

State of Illinois legislative changes have modified work rule jurisdictions and wage scale schedules in the Chicagoland area. There are seven major unions that have some jurisdiction in the Chicagoland area. The following guidelines will help you in preparing your exhibit to understand these jurisdictions.

WHAT AN EXHIBITOR CAN DO WITHOUT UNIONS IN THE CHICAGOLAND AREA

Chicagoland work-rules modifications now enable exhibitors to perform several set-up tasks which in the past were under union jurisdiction. Each of these are itemized below, and must be completed by full-time employees of the exhibiting company.

- 1) Exhibitors may set up and dismantle their own booth displays, as well as the various tasks outlined below, provided the work is being done by full time employees of the exhibiting company. No outside workers are permitted to provide set-up and dismantle services unless they are members of a Chicagoland Carpenter Union Local with valid trade show jurisdictions
- 2) Exhibitors may use hand tools and power tools to perform work within their booths.
- 3) Exhibitors may affix clamp-on lights to the top of their booth displays.
- 4) Exhibitors may calibrate and do repair work on internal circuit boards, and do interconnecting of peripheral computer equipment.
- 5) Exhibitors may do the connection of lighting, video equipment and light bulbs to an electrical outlet when the outlet has been ordered by the exhibitor.
- 6) Exhibitors may hang pictures, graphics, logos, etc. onto a backwall display when such items are designed to be affixed by pre-set velcro strips, permanently mounted hooks, or snaps.
- 7) Exhibitors may hand carry small packages, pop-up displays and desktop computer equipment provided it can be done without the use of a fork-lift, flat cart or dolly, only from a designated parking area.
- 8) Exhibitors may inflate balloons.
- 9) Video taping may be done by exhibitors within the confines of their own booths using equipment owned or rented by the exhibiting company, provided such taping does not conflict with show management regulations, and does not require tools or ladders.
- 10) Exhibitors may un-pack, re-pack and set out their own product line within the booth for display purposes.

CARPENTERS UNION

Carpenters handle the erection and dismantling of display and exhibit booths. This includes all display work with the exception of machinery, signs or lighted headers, unless the sign or header is a permanently attached part of the display. Carpenters also recrate machines for outbound loading. Millwrights, a division of the carpenters union, handle the assembly and the leveling of machinery, as well as the attachment of all guards and shields.

DECORATORS UNION

Decorators handle the installation of signs, drape background, table skirting, and all other items of decorative nature that must be done after a display background is erected.

ELECTRICAL UNION

Electricians handle all electrical work, which includes supplying power lines to your booth, connecting equipment to the proper outlets, installing any signs or headers that are lighted, unless they are permanently attached to the exhibit backwall, and the running of cable within the exhibitors booth.

MACHINERY MOVERS & RIGGERS UNION

Riggers handle all machinery. This includes the unloading of the machines from the trucks, moving the materials to your booth, and a one-time spotting of display ready equipment, which the exhibitor must supervise at the time of unloading. Riggers also remove skids and reskid machines, uncrate machines, and respot machines in the booth if needed. This service must be ordered as needed, at exhibitor's expense.

PLUMBERS UNION

Plumbers handle all plumbing work such as compressed air, water/drain, or natural gas.

TEAMSTERS UNION

Teamsters handle all freight inside the exhibit hall. They unload all trucks or vehicles, deliver the materials to your booth, and remove and reload materials at the close of the show.

THEATRICAL STAGEHANDS UNION

Stagehands assemble portable lighting and sound systems as well as picture screens 10' x 14' in size and larger. They also set stages, operate lighting and sound consoles, and hang lighting trusts and speaker systems.

Hanging of signs from the ceiling, both electrical and non-electrical, is permitted at the Donald E. Stephens Convention Center provided doing so complies with show management rules and regulations and that the following conditions and limitations are adhered to. These conditions have been reviewed and provide limits which cannot be exceeded.

- 1) The top of a sign may not exceed the height limitation specific to the booth location and show regulations.
- 2) All Hanging signs must be sent to RES warehouse, using the hanging sign shipping label included in this exhibitor service manual by the specified deadline date.
- 3) The total weight limit of the sign or materials is not to exceed 1500 lbs. unless approved by RES and the Donald E. Stephens Convention Center.
- 4) All signs, regardless of size, should be constructed of lightweight metals and plastic to allow greater flexibility and ease of installation.
- 5) The Final placement of all hanging signs shall be determined by RES prior to installation to insure minimum stress to the supporting framework.
- 6) No signs are to be hung from any electrical fixtures, raceways, gas, air, fire protection piping, supports or hangers.
- 7) All electrical and neon signs must conform to electrical codes of the Village of Rosemont.
- 8) RES Decorators are responsible for all hanging signs. RES will pre-assemble and hang all signs. No carpenter labor through a display house will be allowed to assemble any hanging sign.
- 9) Set-up instructions must be included with the Hanging Sign Order Form and with the sign crates.
- 10) Because of the structure of the ceiling and the location of exhibits in relation to support beams, the hanging sign may have to be moved from the original specifications.
- 11) Exhibitor personnel or display house may supervise on your behalf. Exhibitors who do not provide supervision (either company personnel or display house) agree to accept the charges for time, materials and equipment as determined by RES
- 12) You are required to make arrangements prior to move-out for the outbound dismantling, packing and shipping of your hanging sign. RES cannot be held liable for damages or misplacement of sign(s) should outbound dismantling arrangements not be made. All pertinent information and arrangements must be given to the RES Service Center .

PLACEMENT DIAGRAM

Use diagram below to represent the booth space. Indicate how far from each boundary you would like your sign. The ceiling structure and relation to support beams may require your sign to be moved from your specified location. On signs other than banners, include drawings or blueprints with detailed information so hanging anchor points can be determined. There will be additional labor charges if a hanging sign has to be moved once it has been suspended based on location indicated by the diagram provided by the exhibiting company or display house.
